

Dear Secretary Shelala: I am deeply
concerned about the possible weakening
requirement for irradiated foods.
We all have the right to know if foods
we eat have been treated with
radiation. 9885 '99 DEC 23 P1:03
FOODS SHOULD BE PROMINENTLY
LABELLED IN A TRUTHFUL AND CLEAR
MANNER. In fact a continuing
education program should be in
place to create awareness among
consumers. Thank you for defending
Consumer rights. Sincerely
Akeleman 12/18/99
